RE: Savage Industries Inc. - "Savage Coal Terminal" - Application for a Name Change

Dear Sir or Madam:

This in response to the Utah Division of Oil, Gas, & Mining's (UT-DOGM) September 22, 2003, request for a decision, under 30 CFR 947.30, whether the above subject permit revision constitutes a mining plan modification.

Mining plan approvals by the Secretary of the Interior are required under the Mineral Leasing Act of 1920, 30 U.S.C. 181, *et seq.* before coal mining can occur on Federal lands. This letter serves to document OSM's determination whether or not a mining plan approval from the Secretary is required for the above permitting action.

OSM's review of the Application for a Name Change, has determined that it proposes to change the name of the permittee of the Savage Coal Terminal, formerly known as the C.V. Spur Coal Processing and Loadout Facility, Utah State permit C/007/022 from Savage Industries Inc. to Savage Services Corporation.

Based on a review of the activities associated with the permit revision, OSM has determined that the proposal does not meet the requirements of 30 CFR 746.11(a) and 746.18(d). Therefore, the proposed permit revision does not constitute a mining plan action requiring Secretarial approval.

OSM's decision was based solely upon the Federal regulations under 30 CFR PART 746 and not the technical aspects of the revision application itself. Consequently, OSM's decision does not relieve UT-DOGM from coordinating the review and approval of the Application for a Name Change with other Federal agencies for compliance with other Federal regulations.

OSM also electronically transmitted the September 22, 2003 request to the Bureau of Land Management and the U.S. Forest Service for their review and comment.

In an electronic transmittal dated September 23, 2003, the U.S. Forest service stated that they had no comments on the application.

In an electronic transmittal dated October 3, 2003 the Bureau of Land Management stated in their opinion the Application for a Name Change does not represent a change that is necessary for a Mining Plan Modification.

Please notify the applicant of our decision on this matter.

Should you have any questions regarding this letter or approval, please contact Carl R. Johnston, Utah Federal Lands coordinator, at (303) 844-1400, extension 1500.

Sincerely,

Ranvir Singh  
Manager, Northwest Branch
